RE: Notice of Incident

Dear Sir/Madam:

We are writing to notify you of a security incident on behalf of our client, Woods & Woods, LLC, located in Evansville, Indiana. New Hampshire residents may have been impacted by the security incident.

On February 1, 2020, Woods & Woods, LLC became aware that it was the victim of a ransomware attack. Woods & Woods promptly took steps to secure its information systems and investigate the incident, including contacting the FBI and hiring a forensic cybersecurity firm, to try to determine which, if any, information may have been accessed or stolen. As a result of the investigation, on February 25, 2020, Woods & Woods concluded that some information was stolen, but that it will likely not be able to determine all of the specific information that was accessed or stolen; therefore Woods & Woods is notifying all potentially affected individuals of the incident. The data involved included demographic information of individuals, such as names, addresses, dates of birth, and social security numbers, as well as medical information and bank account number and routing number of some individuals. Woods & Woods continues to pursue measures to protect and secure its data.

Woods & Woods will be mailing notification letters to approximately 74 New Hampshire residents in the next few days.

Please contact me at scook@btlaw.com or 317-231-7237 if you have any questions or request additional information.

Best regards,

Stacy L. Cook
